Stainless Steel Wire Rods

The stainless steel divisions of Nippon Steel Corporation and Sumitomo Metal Industries, Ltd. were consolidated into a new company named Nippon Steel & Sumikin Stainless Steel Corporation in 2003.

The most sophisticated stainless steel manufacturing technologies as well as state-of-the-art quality control systems, developed and held by each of these two companies, have now been integrated and wholly taken over by this new company. Moreover, as Nippon Steel & Sumikin Stainless Steel Corporation plans to strengthen R&D focusing on stainless steel, the company is confident that it will be able to meet the strictest requirements demanded by customers with its stainless steel wire rods.

**Features**

1. **Excellent Quality**
   - Based on ISO9001, an international quality control system standard, strict quality control is being exercised on an integrated basis from steelmaking to product shipments.
   - A combination of the most advanced equipment and superb manufacturing technologies, including in-line heat treatment, makes available stainless steel wire rods with the mechanical properties and surface textures being uniform and excellent over the entire length.

2. **A Wide Variety of Steel Grades and Sizes Available**
   - A wide selection of steel grades ranging from Cr to Ni types is available to suit intended applications. Wire rods are also available in diameters ranging from 5.5 to 34mm.

3. **Quick Delivery**
   - The stringent process management exercised over the entire sequence of manufacturing stainless steel wire rod also ensures the customers’ full satisfaction with delivery time.
